

# Time Limits Demo Observation Tool

Observer: \_\_\_\_\_ Grade/Class: \_\_\_\_\_

Demo Teacher: \_\_\_\_\_ Date/Time: \_\_\_\_\_

**Skill Definitions:** Teacher identifies and communicates specific times for beginning and completing tasks

**Directions:** Write examples of your demonstration teacher's Time Limits in the first column. Then, for each Time Limit you enter, note the teacher's support behavior(s) and describe the "Student Response" in the column to its right

Time Limit (Script the Teacher)	Teacher Support Behaviors			Student Response
	Cueing	Proximity	Signals	

**Teacher Transfer:** In my classroom, I want to set and refine this Expectation:
